PROFILE

Analytics & data management specialist turning stakeholder needs into auditable measurement and reporting, using visual neuroscience for clarity and privacy-by-design across GDPR/AI Act/ePrivacy.

EXPERIENCE

Data Protection Specialist, NoA - The North Alliance (Part-time) 10/2024 – Present
Copenhagen, Denmark
Part-time privacy function supporting a multi-company group environment.
• Led GDPR and privacy governance activities across stakeholders, providing advisory support, documentation, and risk-based prioritization.
Tools used: ComplyCloud

Senior Data Consultant, NoA Ignite Denmark 02/2022 – Present
Copenhagen, Denmark
Managed complete analytics delivery process, from discovery to implementation planning and decision-support reporting.
• Led discovery workshops to align stakeholders on success metrics and decision requirements prior to implementation.
• Created measurement frameworks and reporting structures to enhance consistency among teams and partners.
• Developed data transformation logic and quality controls to ensure reporting reliability and maintainability, producing executive dashboards and summaries using visual neuroscience principles.
• Enhanced governance with shared metric definitions, change-control practices, and documentation for auditable and repeatable insights.
Tools used: Google Analytics, Google Tag Manager, Tableau, Looker Studio, BigQuery, Power BI, Microsoft PowerAutomate

Customer Insights Analyst, Hilding Anders International AB 04/2021 – 02/2022
Stockholm, Sweden
• Built a tracking and reporting foundation from the ground up for three DTC brands across four markets to enable consistent measurement and self-service reporting.
• Aligned stakeholders through workshops and documented requirements to standardize definitions and reporting logic.
Tools used: Google Analytics, Google Tag Manager, Tableau, Looker Studio, BigQuery, Fivetran, Google Optimize

Online & Business Intelligence Analyst, Nordax Bank AB 10/2019 – 03/2021
Stockholm, Sweden
• Integrated digital measurement data with internal systems to improve lead-quality monitoring and KPI follow-ups across teams.
• Built reporting and analyses for operational and marketing stakeholders, supporting prioritization and process improvements.
Tools used: Tableau, Google Analytics, Google Tag Manager, BigQuery, SAS, SQL Server, Google Optimize

Business Intelligence Analyst, Sodexo Benefits and Rewards Services 05/2017 – 09/2019
Stockholm, Sweden
• Produced executive decision support through database querying, reporting, and analysis of payment/transaction datasets.
Tools used: Tableau, Salesforce, Google Analytics, Google Tag Manager, Google Optimize
